Target version:	Sprint-2012.11-Block.2.2		
Milestone:	CCI-1.0.0	**Story Points:**	
Product Version:	*		

Description

Instead of a list of checksum algorithms, I get:

22:12:50 DEBUG operation: GET /cn/v1/checksum

NotFound: name: NotFound
errorCode: 404
detailCode: 1800
description: No system metadata could be found for given PID: ev.dataone.org/cn/v1/checksum
PID: None

Also note the truncated first part of "cn-dev.dataone.org" -- it may be a second issue.

History

#1 - 2012-02-23 03:15 - Ben Leinfelder

This should be fixed in the latest Metacat, but I don't think it is yet deployed on the cn-dev servers -- was waiting for Robert.

#2 - 2012-02-23 17:22 - Ben Leinfelder

- Status changed from New to Closed

works on my local Metacat, but still needs to be deployed to cn-dev stack.
