Infrastructure - Task #1242

Story # 1241 (Closed): Support URL without trailing slash for MN root

Support URL without trailing slash for MN root

2011-01-19 02:11 - Roger Dahl

Status:	Closed	**Start date:**	2011-01-19
Priority:	Normal	**Due date:**	
Assignee:	Roger Dahl	**% Done:**	100%
Category:	d1_mn_GMN	**Estimated time:**	0.00 hour
Target version:	Sprint-2011.03		
Milestone:		**Story Points:**	
Product Version:	*		

Description

This URL currently does not work:

http://dev-gmn-dryad/mn

But this one does:

http://dev-gmn-dryad/mn/

Trailing slashes are supported for all other URLs.

History

#1 - 2011-01-19 16:31 - Roger Dahl

- Status changed from New to Closed

- Target version set to Sprint-2011.03

```
# Django ticket: http://code.djangoproject.com/ticket/12083. This is a hack
# that is applied when the root of the app is requested without a trailing
# backslash through Apache. Without this, Django 1.1.1 raises a KeyError
# exception. The workaround was found by comparing working and non-working
# requests. It should be removed for Django 1.2.
```
