Target version:	Sprint-2011.11-Block.2			
Milestone:		**Story Points:**		
Product Version:	*			

Description
Can test using mn.create2(..) method, and D1ClientTest.testCreateData_CurrentRestFormat().

History

#1 - 2011-03-01 18:01 - Rob Nahf

- Assignee set to Rob Nahf

- translation missing: en.field_remaining_hours set to 4.0

#2 - 2011-03-02 05:59 - Rob Nahf

edited ResponseHandler.putObject() so that POST (create) gets the pid from the mimemultipart parameters instead of the path. Changed obsoletedGuid to obsoletedPid, in the update section, corrected a couple detail codes, and added a uniqueness check on the new pid in the case of update. Still need to test and check in.

#3 - 2011-03-02 18:48 - Rob Nahf

- Status changed from New to Closed

decided not to remove the pid from the end of the POST url path. So no need to change mn.create() from the existing implementation. Other changes in metacat ResponseHandler are still valid and should be checked in.
