

Infrastructure - Bug #1302

checksum implementation not to spec on metacat

2011-02-07 20:47 - Rob Nahf

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Metacat	Estimated time:	0.00 hour
Target version:	Sprint-2011.05	Story Points:	
Milestone:			
Product Version:	*		

Description

checksum implementation for metacat is:

restURL: <http://cn-dev.dataone.org/knb/d1/checksum?sessionid=public&id=simpleApiTests:testid:201138123656834>
method: GET

architecture documentation (and gmn implementation) has a different "signature" - the PID is on the path, instead of the url query string.

http://mule1.dataone.org/ArchitectureDocs-current/apis/MN_APIs.html#MN_crud.getChecksum

History

#1 - 2011-02-07 20:50 - Rob Nahf

- Category set to Metacat

#2 - 2011-02-07 20:53 - Rob Nahf

the correct implementation actually doesn't return a response, either (doesn't throw an error), and probably should. eg:

<http://cn-dev.dataone.org/knb/d1/checksum/simpleApiTests:testid:201138123656834>

#3 - 2011-02-07 22:54 - Chad Berkley

- Status changed from New to Closed

- % Done changed from 0 to 100

fixed in metacat [r5926](#)
