**Description**

dev-dryad-mn appears to be having problems passing through the data streams from Dryad. For example, the following returns a status of "200" even though no data bytes are returned.

It looks like the response body contains the URL of the data source, not the data itself.

```
curl -v "http://dev-dryad-mn.dataone.org/mn/object/hdl:10255%2Fdryad.26%2Fmets.xml_data"
