| <b>Description</b><br>compare Rest URL format in<br><a href="http://mule1.dataone.org/ArchitectureDocs-current/apis/MN_APIs.html#MN_crud.create">http://mule1.dataone.org/ArchitectureDocs-current/apis/MN_APIs.html#MN_crud.create</a><br><br>with general rules for POST (whereby all parameters need to be contained in message body), and parent story<br><br>Need to remove the "/{pid}" from "object/{pid}" in the Rest URL listing on the MN API page |                        |                        |            |

History

#1 - 2011-03-02 05:01 - Rob Nahf

also need to remove {pid} in the create listing in the table at top of MN API page

#2 - 2011-03-02 18:46 - Rob Nahf

from discussion at stand-up, decided to keep the pid at the end of the url path for POSTS (create). In the context of different interpretations of POST and PUT semantics, consistency within dataONE Rest calls was considered more important. (all other http verbs have the pid at the end for CRUD operations).

#3 - 2011-03-02 18:49 - Rob Nahf

- Status changed from New to In Progress

#4 - 2011-03-22 13:49 - Dave Vieglaiss

- Status changed from In Progress to Closed

Docs reflect the decision to use the form POST /object/{pid} to create content.
