

Infrastructure - Bug #1436

sysmeta objects returned by object call

2011-03-24 19:00 - Rob Nahf

Status:	Closed	Start date:	2011-03-24
Priority:	Normal	Due date:	
Assignee:	Robert Waltz	% Done:	100%
Category:	Metacat	Estimated time:	0.00 hour
Target version:	Sprint-2011.20-Block.3	Story Points:	
Milestone:			
Product Version:	*		
Description			
<p>On cn-ucsb-1, about 500 objects with identifier of the format "hdl:10255/dryad.{d{2,4}/mets.xml_data" are returning system metadata objects, instead of the object itself, or a file not found.</p> <p>example: http://cn-ucsb-1.dataone.org/cn/object/hdl:10255/dryad.1035/mets.xml_data</p> <p>a spotcheck shows that the cn/meta call returns the same object.</p> <p>using the /knb/d1/ service endpoint yields the same results.</p> <p>a call to the authoritative node returns a binary object of what is probably the same size as listed in objectInfo size.</p> <p>see attached xlsx for list of all matching the description</p>

- Target version changed from Sprint-2011.19-Block.3 to Sprint-2011.20-Block.3

#9 - 2011-05-23 17:37 - Robert Waltz

- Status changed from New to Closed

this is a larger issue with metacat and will be replaced by a development story to move systemmetadata into tables rather than using filesystem storage.
