History

#1 - 2011-10-21 14:18 - Matthew Jones

- Assignee changed from Matthew Jones to Ben Leinfelder

#2 - 2011-11-01 16:34 - Ben Leinfelder

- Status changed from New to Closed

- Milestone set to None

the d1_portal_servlet project includes a web UI for:

- *registering your CILogon identity with DataONE
- *updating your account details
- *requesting to map to a different CILogon identity
- *confirming pending requests from your alternate CILogon identity
- *removing existing identity mappings
- *creating groups of accounts
- *adding and removing members of groups that you have created

In the KNB (Metacat "dataone" skin) there is a utility for mapping an existing KNB LDAP identity to a CILogon identity.
