Target version:	Sprint-2011.17-Block.3		
Story Points:			
Description With the general refactoring of d1_common_java and d1_libclient_java, this is a good time to make the change. The problem is with the method signatures for the addFilePart methods. the name field is first for some, and second for another. Will trigger a refactor of callers in d1_libclient_java.			
Subtasks:			
Task # 1498: update d1_libclient_java			Closed
Task # 1497: change method signature in d1_common_java			Closed
