<b>Description</b>			

#### History

##### #1 - 2011-05-31 17:42 - Rob Nahf

- Position deleted (1)

- Position set to 1

- Subject changed from review integration test coverage vis a vis new tiered methods to review integration test coverage vis a vis new tiered interfaces

##### #2 - 2011-05-31 17:47 - Rob Nahf

- Assignee set to Nicholas Dexter

New methods were introduced with the new tiered interfaces. We need to review vs. what we already have in d1\_integration. The primary java test cases are org.dataone.integration.CNodeIT and ...MNodeIT.

Data ReplicationIT and Synchronization IT are not up and running at the moment. (probably should be at this point).

##### #3 - 2011-05-31 19:34 - Rob Nahf

- Position deleted (2)

- Position set to 27

##### #4 - 2011-06-06 16:32 - Nicholas Dexter

- Status changed from New to In Progress

##### #5 - 2011-06-06 22:50 - Nicholas Dexter

- Status changed from In Progress to Closed

- % Done changed from 0 to 100

CNCore:

getFormat: Identifier is now ObjectFormatIdentifier

getLogRecords: DNE

listNodes: no longer requires AuthToken parameter

registerSystemMetadata: DNE

CNRead:

get: now requires Session parameter instead of AuthToken

getSystemMetadata: now requires Session parameter instead of AuthToken

resolve: now requires Session parameter instead of AuthToken

reserveIdentifier: now requires (Session, Identifier, string, string)

assertRelation: now requires Session parameter instead of AuthToken

getChecksum: DNE  
search: now requires Session parameter instead of AuthToken, and additional QueryType parameter

CNAuthorization:

setOwner: now requires Session parameter instead of AuthToken  
isAuthorized: now requires Session parameter instead of AuthToken  
setAccess: old method using 4x string is now replaced with using (Session, Identifier, AccessPolicy)  
setAccessPolicy: DNE

CNIdentity:

registerAccount: DNE  
updateAccount: DNE  
verifyAccount: DNE  
mapIdentity: unimplemented stub that now require Session paramter instead of AuthToken  
confirmMapIdentity: DNE  
createGroup: unimplemented stubs that now require Session paramter instead of AuthToken, return boolean type  
addGroupMembers: DNE

CNReplication:

setReplicationStatus: DNE  
updateReplicationMetadata: DNE  
setReplicationPolicy

CNRegister:

updateNodeCapabilities: DNE  
register: now requires Session parameter instead of AuthToken

#### #6 - 2011-06-07 17:19 - Nicholas Dexter

MNCore:

ping: DNE  
getLogRecords: now requires Session parameter instead of AuthToken, missing start integer and count integer  
getObjectStatistics: DNE  
getOperationStatistics: DNE  
getStatus: DNE  
getCapabilities: DNE

MNRead:

get: now requires Session parameter instead of AuthToken  
getSystemMetadata: now requires Session parameter instead of AuthToken

describe: now requires Session parameter instead of AuthToken  
getChecksum: now requires Session parameter instead of AuthToken  
synchronizationFailed: DNE

#### MNAuthorization

isAuthorized: DNE  
setAccess: now requires Session parameter instead of AuthToken, 4\*strings now replaced by AccessPolicy, now returns boolean instead of void

#### MNStorage:

create: now requires Session parameter instead of AuthToken  
update: now requires Session parameter instead of AuthToken  
delete: now requires Session parameter instead of AuthToken

#### MNReplication:

replicate: DNE
