

Infrastructure - Bug #1618

mn.getCapabilities returns NodeList, but more appropriate to return Node

2011-06-01 18:41 - Rob Nahf

<b>Target version:</b>	Sprint-2011.22-Block.3	<b>Story Points:</b>	
<b>Milestone:</b>			
<b>Product Version:</b>	*		
<b>Description</b>			
Since a node can only report about itself, the return type is more accurately described as a Node, rather than a NodeList with only one Node element. Changing the return type would simplify client parsing.			
Probably good to change this while building towards 0.6.2 release, as other datatypes are changing.
