

Infrastructure - Task #1653

Story # 1652 (Closed): Refactor Metacat MN and CN classes to reflect 0.6.2 API

Create Metacat MN impl classes

2011-06-21 17:59 - Chris Jones

Status:	Closed	Start date:	2011-06-21
Priority:	Normal	Due date:	
Assignee:	Chris Jones	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	Sprint-2011.35-Block.5	Story Points:	
Milestone:	None		
Product Version:	*		
Description			
Refactor CrudService into MNBase, MNCOREImpl, MNReadImpl, MNAuthorizationImpl, and MNStorageImpl, MNReplicationImpl			

History

#1 - 2011-06-21 21:13 - Chris Jones

We'll use one class to handle MN service calls:

MNodeService extends D1NodeService implements MNCORE, MNRead, MNAuthorization, MNStorage, MNReplication

#2 - 2011-06-23 14:39 - Chris Jones

- Status changed from New to In Progress

Stub methods are finished, and CrudService functionality needs to be migrated to this class.

#3 - 2011-06-30 13:29 - Chris Jones

MNodeService implements MNRead, MNStorage, MNAuthorization, and MNCORE.ping(). Remaining: MNCORE.getOperationsStatistics(), MNCORE.getCapabilities(), MNReplication.replicate()

#4 - 2011-08-24 15:38 - Chris Jones

- Milestone set to None

Remaining: MNCORE.getOperationsStatistics(), MNCORE.getStatus(), which are not defined yet.

#5 - 2011-09-01 15:33 - Chris Jones

- Status changed from In Progress to Closed

The MNCORE API has been modified to drop getOperationsStatistics() and getStatus(), so we're done.
