

Infrastructure - Task #1712

Story # 1388 (Closed): implement MN-MN replication manager in CN stack

Add MNReplication.getReplica() method

2011-08-24 16:05 - Chris Jones

Status:	Closed	Start date:	2011-08-26
Priority:	Normal	Due date:	
Assignee:	Nicholas Dexter	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	Sprint-2011.41-Block.5	Story Points:	
Milestone:	CCI-0.6.2		
Product Version:	*		
Description MNReplication.getReplica(token, pid) needs to be added since the MNRead.get() method isn't appropriate for the Replication API. Object GETs should be logged differently when they are called by a target replication MN rather than a DataONE Subject.			
Subtasks: Task # 1724: Add MNReplication.getReplica(token, pid) to API-documents			
			Closed
