

Infrastructure - Bug #1798

synchronization failed returns ServiceFailure on knb-test-1

2011-09-22 19:30 - Rob Nahf

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Ben Leinfelder	% Done:	100%
Category:	Environment.Development	Estimated time:	0.00 hour
Target version:	Sprint-2011.38-Block.5	Story Points:	
Milestone:	CCI-0.6.4		
Product Version:	*		
Description			
from d1_integration tests testSynchronizationFailed() method.			
At first, the SynchronizationFailed object I sent in the request did not contain a PID, and it properly returned an InvalidRequest. After adding the PID to the exception, a ServiceFailure was returned, but with empty description and detail code of "0000".			
The PID was taken from an object already on knb-test-1 (testCreate.1313019200146).			

History

#1 - 2011-09-22 19:45 - Rob Nahf

- Category set to 275
- Assignee set to Chris Jones

#2 - 2011-09-22 23:11 - Ben Leinfelder

- Status changed from New to Closed
- Assignee changed from Chris Jones to Ben Leinfelder

checking for null Session object before logging the sync failure - now there is no spurious error message. (Though this should never be called by public user, right?)
