Infrastructure - Bug #1850

As a MN, Metacat sends ServiceFailure on SSL cert failure

2011-10-11 23:00 - Robert Waltz

Status:	Closed	**Start date:**	2011-10-11
Priority:	Normal	**Due date:**	
Assignee:	Ben Leinfelder	**% Done:**	100%

Target version:			
Milestone:	CCI-0.7.0	**Story Points:**	
Product Version:	*		

Description

On line 353 of MNodeService, if session is null, then the create method generates a NullPointer exception.

If line 130 returns a null session in D1ResourceHandler (due to a certificate not found in request), then the mn create method should return a NotAuthorized rather than a ServiceFailure.

- Status changed from New to Closed

How about InvalidToken? -- I think that is more appropriate in this case.
