Target version:		Story Points:	
Milestone:	CCI-0.6.4		
Product Version:	*		
Description <p>Dublin Core is a common metadata schema we should support. Two specific Dublin Core schemas have been requested for inclusion in the type format list:</p> <p>http://dublincore.org/schemas/xmls/qdc/2008/02/11/simpliedc.xsd http://dublincore.org/schemas/xmls/qdc/2008/02/11/qualifieddc.xsd</p> <p>These both import the DC elements from this schema: http://dublincore.org/schemas/xmls/qdc/2008/02/11/dc.xsd</p> <p>In this case, the URLs above should probably be used as the fmtid as they are commonly used as the namespaces for these schemas.</p>
