Story # 1906 (Closed): Review, revise, and update architecture documentation

MNAuthorization.isAuthorized() - convenience methods for canRead() / canWrite()

2011-10-27 02:24 - Roger Dahl

Status:	Rejected	Start date:	2011-10-27
Priority:	Normal	Due date:	
Assignee:	Dave Vieglais	% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:	Maintenance Backlog	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description			
I don't think we need convenience methods for canRead() / canWrite(). I think that isAuthorized(session, pid, 'read') is both brief and descriptive.			

History

#1 - 2011-11-03 20:32 - Dave Vieglais

- Status changed from New to Rejected

We can perhaps revisit this sometime later. The intent may have been to include a list of PIDs with canRead / canWrite, but that is still a minor difference from isAuthorized.

#2 - 2014-10-02 17:21 - Dave Vieglais

- Target version set to Maintenance Backlog
