| Data and documents need to have SystemMetadata in order to be DataONE compliant. |                          |                        |            |

History

#1 - 2011-11-29 00:26 - Ben Leinfelder

- Category set to Metacat
- Status changed from New to In Progress
- Assignee set to Ben Leinfelder

There's a class that does this now -- just needs to be plugged into the upgrade infrastructure in Metacat. Of course it means upgrade will take a very long time for large repositories (KNB).

#2 - 2011-12-17 00:44 - Ben Leinfelder

- Status changed from In Progress to Closed

This is included in the Metacat upgrade process now.
