Description

Two new DNS entries are required for the dataone.org domain:

A redmine-2.dataone.org 64.106.40.11

A epad-2.dataone.org 64.106.40.12

These represent new virtual machines that will eventually replace the existing redmine.dataone.org and epad.dataone.org servers, and so the DNS timeout on redmine.dataone.org and epad.dataone.org should be set to a reasonably low value (e.g. 10 minutes) in preparation for the move.
