Story # 1906 (Closed): Review, revise, and update architecture documentation

CNCore.reserveldentifier(session, pid) - Return Boolean instead of Identifier

2011-12-03 01:41 - Roger Dahl

Status:	Rejected	Start date:	2011-12-03
Priority:	Low	Due date:	
Assignee:	Dave Vieglaiss	% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:	Maintenance Backlog	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description On success, CNCore.reserveldentifier(session, pid) returns the same PID that was passed in. Of course, the caller already knows which PID he passed in. We can return a boolean instead.			

History

#1 - 2011-12-08 16:19 - Dave Vieglaiss

- Status changed from New to Rejected

There is a possibility that the passed in string may be modified - e.g. removing leading or trailing whitespace. Hence the reserved PID is returned.

#2 - 2014-10-02 17:21 - Dave Vieglaiss

- Target version set to Maintenance Backlog
