### History

#### #1 - 2012-03-14 20:38 - Ben Leinfelder

- Status changed from New to Closed

I've put my prototype in the d1\_portal\_servlet project because:

- we have stylesheets for rendering web interfaces there
- we have a pre-existing mechanism for interacting with the CN as a client to gather all the necessary information
- the portal is configured on a per-environment basis
- the portal is deployed on each CN

Here's a look at it: <https://cn-dev-rr.dataone.org/portal/status.jsp>
