

Infrastructure - Task #2243

Story # 312 (Closed): Identifier generation and reservation

hasReservation: use new SubjectInfo parameter

2012-01-19 19:57 - Ben Leinfelder

Status:	Closed	Start date:	2012-01-19
Priority:	Normal	Due date:	
Assignee:	Ben Leinfelder	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	Sprint-2012.03-Block.1.2	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description			
Should now pass in SubjectInfo parameter when checking an Identifier reservation. This way an MN can verify that a submitter actually holds the lock on the pid.			

History

#1 - 2012-01-19 22:44 - Ben Leinfelder

The documentation has the REST call using GET, but we can't include SubjectInfo in the body (there isn't one).
Need to reconcile this.

#2 - 2012-01-19 23:33 - Ben Leinfelder

We will use POST for the request

#3 - 2012-01-20 00:43 - Ben Leinfelder

- Status changed from New to Closed

Now using POST /hasReservation with subjectInfo and pid as MMP in the body.
