Infrastructure - Task #2268

Story # 2025 (Closed): Tool to list versions of dataone components installed on CN

Update buildout install scripts to generate version document

2012-01-30 19:40 - Skye Roseboom

Status:	Closed	**Start date:**	2012-01-30
Priority:	Normal	**Due date:**	
Assignee:	Skye Roseboom	**% Done:**	100%
Category:	Management	**Estimated time:**	0.00 hour
Target version:			
Milestone:	CCI-1.0.0	**Story Points:**	
Product Version:	*		

Description

Since d1 component upgrades will be performed using the debian install packages, if the postinst scripts for these packages called the version tool command then the version report should always be current.

As opposed to creating a cron job or requiring user to manually generate version document.

History

- Status changed from New to Closed

Complete. cn-version-tool is invoked from each appropriate CN node deb postinst script.
