Chnage domain registrar from enomcentral to godaddy for price and reliability.

History

#1 - 2012-02-10 22:52 - Matthew Jones

- Category set to Support Operations

- Status changed from New to In Progress

Initiated transfer from enomcentral to GoDaddy. Transfer is pending, awaiting approval of enomcentral. The transfer application states that this may take 5-7 days or more. I opted to leave the nameservers alone for now, which means that the transfer of registrars should be seemless (they both will point to the same name servers).

#2 - 2012-02-14 01:20 - Matthew Jones

- Status changed from In Progress to Closed

- % Done changed from 0 to 100

Transfer completed to GoDaddy.com. Whois queries now report GoDaddy as the registrar, and our new gmail account as the Admin email account.
