

Infrastructure - Task #2346

Story # 1823 (Closed): Debian Packages need to be updated when updated, and environment aware

Modify dataone-cn-metacat debian scripts to be aware of the deployed environment and install status

2012-02-17 00:44 - Chris Jones

Status:	Closed	Start date:	2012-02-17
Priority:	Normal	Due date:	
Assignee:	Chris Jones	% Done:	100%
Category:	Metacat	Estimated time:	0.00 hour
Target version:	Sprint-2012.11-Block.2.2	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description			
The dataone-cn-os-core package sets up the deployed environment. Subsequently installed packages, such as metacat, should be configured based on the deployed environment. For instance, a debconf key called dataone-cn-os-core/cn.context.label is set (to DEV, SANDBOX, STAGE, or PRODUCTION), and the metacat.properties file should be modified accordingly to connect to cn-sandbox.dataone.org (in the sandbox case) via D1Client.			

History

#1 - 2012-02-29 16:18 - Chris Jones

- Parent task deleted (#2335)
- Category set to Metacat
- Status changed from New to In Progress
- Assignee set to Chris Jones

I'm removing this as a subtask of #2335 and will add it to a different story.

#2 - 2012-02-29 17:02 - Chris Jones

- Parent task set to #1823

I'm making this a subtask of #1823.

#3 - 2012-02-29 17:08 - Chris Jones

- Subject changed from Modify dataone-cn-metacat debian scripts to be aware of the deployed environment to Modify dataone-cn-metacat debian scripts to be aware of the deployed environment and install status
- Target version changed from Sprint-2012.09-Block.2.1 to Sprint-2012.07-Block.1.4

#4 - 2012-03-26 16:50 - Chris Jones

- Status changed from In Progress to Closed

Metacat is now being updated per environment.
