Infrastructure - Bug #2355

Incorrect node id added to replica entry for system metadata

2012-02-21 16:54 - Dave Vieglais

Status:	Closed		**Start date:**	2012-02-21
Priority:	High		**Due date:**	
Assignee:	Robert Waltz		**% Done:**	100%
Category:	d1_synchronization		**Estimated time:**	0.00 hour
Target version:	Sprint-2012.09-Block.2.1			
Milestone:	CCI-1.0.0		**Story Points:**	
Product Version:	*			

Description

Content added to gmn-dev is replicated by the cn-dev* machines. The replica information is incorrect, specifying a node id of "c3p0" for one of the replicas.

Example:

https://cn-dev.dataone.org/cn/v1/meta/XYZ33256

It is not clear where the node id "c3p0" is being obtained from, though it appears to be a misconfiguration of synchronization. Specifically the property "Synchronization.CN_REPLICA_NODE" defaults to "c3p0"
