Description

Currently, variables are set using arguments, not options:

```
@d1_cli 'set mnurl http://localhost:8080/knb/d1/mn/@ [commands...]
```

It is desirable to allow variables to be set using long options:

```
@d1_cli --mnurl=http://localhost:8080/knb/d1/mn/@ [commands...]
```

(or maybe @d1_cli --mnurl <http://localhost:8080/knb/d1/mn/>@ [commands...])
