Description			

History

#1 - 2012-02-23 22:46 - Andrew Pippin

Go through the commands in the CLI and the methods in the API and make sure that the names match. If not, collect a list for review.

#2 - 2012-02-23 22:57 - Andrew Pippin

There are now 35 commands in the "CLI":

- *Status changed from New to Closed*

Renamed "@get@" command (display session variable) to "@show@".

Renamed "@data@" command to "@get@" to correspond to MNRead.get()/CNRead.get() method call.
