Story # 2086 (Closed): CN issues found when creating tests for Python D1 CNClient

Add support for "slash format" to CrontabEntry in schema

2012-02-24 18:31 - Roger Dahl

Status:	Closed	Start date:	2012-02-24
Priority:	Low	Due date:	
Assignee:	Matthew Jones	% Done:	100%
Category:	d1_schemas	Estimated time:	0.00 hour
Target version:	Sprint-2012.11-Block.2.2	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description			
<p>The schema currently does not allow formats that contain slashes to specify recurrences in CrontabEntry. As for instance, "0/3" to specify recurrences every 3rd time period. The error is:</p> <p>2/12/12: Verified to still be an issue. Error: E [Xerces] cvc-pattern-valid: Value '0/3' is not facet-valid with respect to pattern '([\d]{1,2}[-,]?)+' for type 'CrontabEntry'.</p> <p>The current workaround is to use "comma format" to specify such recurrences.</p> <p>At some point, we will want to add support for the "slash format".</p>			

History

- Status changed from New to Closed
- % Done changed from 0 to 100
- Milestone changed from None to CCI-1.0.0

Completed regex change in [r7116](#), to be released as part of the schema 1.0.2 release. Found additional characters needed in crontab entries that follow quartz, so generalized the expression to allow all quartz-valid characters. Added quartz crontab docs to the schema document.
