Infrastructure - Bug #2458

demo2 not respecting "start" parameter for getLogRecords

2012-03-08 17:56 - Dave Vieglais

Status:	Closed		**Start date:**	2012-03-08
Priority:	Normal		**Due date:**	
Assignee:	Ben Leinfelder		**% Done:**	100%
Category:	Metacat		**Estimated time:**	0.00 hour
Target version:	Sprint-2012.09-Block.2.1			
Milestone:	CCI-1.0.0		**Story Points:**	
Product Version:	*			

Description
For example:
curl -k "https://demo2.test.dataone.org/knb/d1/mn/v1/log?start=1590&count=100"
appears to return all records starting at 0

History

#1 - 2012-03-08 18:01 - Ben Leinfelder

There are only 1551 total records at this point, so your starting point is out of bounds. It should really return 0 entries in this case. I will finesse it to check for these out of bounds cases and double check that normal cases behave as expected.

- Status changed from New to Closed

use start and count parameters with special cases as follows:
-if start+count exceeds the total number of records, then only return from start to the end of the list
-if start exceeds total record count, start at the end of the list (which will return an empty list)
