Infrastructure - Task #2492

Story # 2005 (Closed): Status page for nodes, and for infrastructure

Add status page for given {pid}

2012-03-15 01:58 - Ben Leinfelder

Status:	New		**Start date:**	2012-03-15

Target version:				
Milestone:	CCI-1.0.0		**Story Points:**	
Product Version:	*			

Description

Mostly for internal use. Provide a pid as input and it will check the status of the pid, including:
- nodes returned by resolve()
- get() results for each node that stores a replica
- getSystemMetadata() results for nodes that store a replica
- [possibly] getLogRecords() for that pid to see the activity on it. This one is still being fleshed out.

History

#1 - 2012-03-15 02:02 - Dave Vieglais

Actually, I was thinking of checking all nodes, not just those that are expected to hold a replica.

It provides a simple, albeit inefficient, mechanism to verify what information is available for a pid on what nodes.
