#### Description

The CN software stack needs to be installed on cn-staging-ucsb-1

Should use the unstable channel for packages

All installs should be made from packages, with no "quick fixes" dropped in (goal is to operate staging only from code that is under revision control)

#### History

#1 - 2012-04-20 15:31 - Chris Jones

- Status changed from New to Closed

Robert actually installed the CN stack on cn-stage-orc-1 for evaluation, so I'm closing out this ticket.
