Target version:	Sprint-2012.15-Block.2.4	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description			
We need a number of science metadata and data files for the hands-on part of the workshop. FGDC or EML metadata already listed in the object formats would be best. Binary data (like Excel spreadsheets) should be converted to CSV (until we have a more complete object format list). This will probably involve Viv and Mike.
