

Infrastructure - Task #2616

Update solr schema field names

2012-04-19 16:57 - Skye Roseboom

Status:	Closed	Start date:	2012-04-19
Priority:	Normal	Due date:	
Assignee:	Skye Roseboom	% Done:	100%
Category:	d1_indexer	Estimated time:	0.00 hour
Target version:	Sprint-2012.15-Block.2.4	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description			
Field naming in the solr schema needs to be updated for consistent naming. using camel-case or no.			
Also may need to update the schema for field names which have changed in the d1 api - objectFormat -> formatId for instance.			

History

#1 - 2012-04-23 16:34 - Skye Roseboom

- Status changed from New to In Progress

#2 - 2012-04-24 19:47 - Skye Roseboom

Updated field 'objectformat' to be 'formatId' to match d1 rest api parameters.

Updated naming to use consistent camel casing between words. removed use of '_' character between words.

Some fields may not be completely consistent - especially fields used by one-mercury search interface - datasource is treated as one word.

Deployed to cn-dev-2.

#3 - 2012-04-26 20:12 - Skye Roseboom

- Status changed from In Progress to Closed

Tested, no issues found.
