

Infrastructure - Bug #2619

One-mercury 'return to search' action breaks search inputs

2012-04-19 17:16 - Skye Roseboom

Status:	Closed	Start date:	2012-04-19
Priority:	Normal	Due date:	
Assignee:	Skye Roseboom	% Done:	100%
Category:	d1_mercury	Estimated time:	0.00 hour
Target version:	Sprint-2012.17-Block.3.1	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		

Description

The default full-text search parameter value in the one-mercury search interface are getting corrupted with search field names when using the 'return to search' links. Issue also effects spatial search params and possibly others - temporal.

Seems to be a state issue in one-mercury with how the params are transformed by the search or search result actions.

History

#1 - 2012-04-23 17:54 - Dave Vieglais

- Target version changed from Sprint-2012.15-Block.2.4 to Sprint-2012.17-Block.3.1
- Position set to 1
- Position changed from 1 to 429

#2 - 2012-04-27 19:20 - Skye Roseboom

- Status changed from New to Closed

Merged javascript updates in from Ranjeet.

Tested:

Windows - IE, FF
OSX - Safari, FF
Ubuntu - FF

Looks great! Unable to break so far.
