Story # 1906 (Closed): Review, revise, and update architecture documentation

MNReplication.getReplica() - Add information about CNReplication.isNodeAuthorized()

2012-04-26 00:28 - Roger Dahl

Status:	New	Start date:	2012-04-26
Priority:	Normal	Due date:	
Assignee:	Dave Vieglais	% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:	Maintenance Backlog	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description			
Add information about the MN being required to call CNReplication.isNodeAuthorized().			
Also, someone (Rob?) brought up a good point that an MN is free to use a whitelist instead. Could be handy if it accepts replicas only from specific MNs and fully trusts those MNs.			
Actually, it was Chris. From our discussion:			
So, if that is your only criteria and you fully trust the target MN, then it should be ok to just use the NodeReplicationPolicy as a whitelist.
