

Infrastructure - Task #2659

Forward http requests to https on CN

2012-04-27 19:18 - Skye Roseboom

Status:	Closed	Start date:	2012-04-27
Priority:	Normal	Due date:	
Assignee:	Skye Roseboom	% Done:	100%
Category:	d1_cn_service	Estimated time:	0.00 hour
Target version:	Sprint-2012.17-Block.3.1	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		

Description

Since no services are responding to http:

Provide a mod rewrite to forward http requests against CN services to https. If not able to redirect, provide landing page and redirect from there.

History

#1 - 2012-04-27 19:19 - Skye Roseboom

- Subject changed from Forward http requests to http on CN to Forward http requests to https on CN

#2 - 2012-04-30 19:21 - Skye Roseboom

- Status changed from New to In Progress

#3 - 2012-05-02 19:17 - Skye Roseboom

- Status changed from In Progress to Closed

updated cn-ssl file in dataone-cn-os-core buildout project to add the following virtual host block to effect http to https redirect:

```
DocumentRoot /var/www
ServerName SERVER_NAME
Redirect permanent / https://SERVER\_NAME/
```

SERVER_NAME is substituted per environment context in postinst script - not new functionality, re-using existing substitution.
