

Infrastructure - Story #2727

need to test multi-rule access policy

2012-05-09 15:40 - Rob Nahf

Status:	Closed	Start date:	2012-05-09
Priority:	Normal	Due date:	
Assignee:	Rob Nahf	% Done:	100%
Category:	d1_integration	Estimated time:	0.00 hour
Target version:	Sprint-2012.19-Block.3.2		
Story Points:			
Description			
All current authorization tests are against objects with a single-rule access policy. This does not adequately test that the authorization algorithms:			
check all of the access rules, or just the first one			
look for the greatest access allowed for their set of subjects, or simply the first one encountered			
look within all of the subjects in an access rule, or just the first one			
look within all of the permissions in an access rule, or just the first one			
Subtasks:			
Task # 2728: create a test object with a complicated access policy			Closed

History

#1 - 2012-05-09 15:45 - Rob Nahf

- Category set to d1_integration

- Assignee set to Rob Nahf

#2 - 2012-05-10 18:54 - Rob Nahf

- Status changed from New to Closed

wrote and committed the test to d1_integration as per the task. (tests all four scenarios).
