

Infrastructure - Task #2748

Bug # 2743 (Closed): listObjects impl's do not support consistent slicing

update documentation for all slicing methods on count behavior

2012-05-11 17:12 - Rob Nahf

Status:	Closed	Start date:	2012-05-11

Target version:	Sprint-2012.41-Block.6.1	Story Points:	
Milestone:	CCI-1.1		
Product Version:	*		
Description listObjects(), getLogRecords(), listSubjects() I think documentation says that the service may not return the number asked for, but would be improved if it says that even if you don't get all that you asked for, there may be more to get. (rather than you asked for 1000, but there were only 359). Perhaps suggest a "best practice" of checking the start, count, and total in the response to see if there is more to get.
