

Infrastructure - Task #2860

Story # 2859 (Closed): Production environment passwords and configuration need to be secured

Create a productionPW.txt file in subversion

2012-06-06 15:40 - Chris Jones

Status:	Closed	Start date:	2012-06-06
Priority:	Normal	Due date:	
Assignee:	Dave Vieglaiss	% Done:	100%
Category:	Support Operations	Estimated time:	0.00 hour
Target version:	Sprint-2012.35-Block.5.2	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description We decided that the /sysadmin folder in subversion is the appropriate location for a secure production password and config file. Create this and encrypt it with the keys of those responsible for the production environment. Ensure those people also have access to /sysadmin in SVN.			

History

- Status changed from New to Closed

Password file created under:

<https://repository.dataone.org/sysadmin/PW/>

This file is intended for services running on CNs, not for shell accounts and so forth.
