

Infrastructure - Task #2862

Story # 2859 (Closed): Production environment passwords and configuration need to be secured

Change the Metacat postinst script to use a per-env admin DN

2012-06-06 15:48 - Chris Jones

Status:	Closed	Start date:	2012-06-06
Priority:	Normal	Due date:	
Assignee:	Chris Jones	% Done:	100%

Target version:	Sprint-2012.35-Block.5.2	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		
Description We've hardcoded the Metacat admin DN into the postinst script, but it should be drawn from the per environment config file so we can have a production DN that is separate from the DN for the development environments. This can also be changed in the Metacat configuration screen, or in metacat.properties, so is fairly low priority.

- Status changed from New to Closed

Changes are made in the configuration of metacat, which is minor, so we'll stick with that.
