History

#1 - 2012-06-12 04:35 - Ben Leinfelder

- Status changed from New to In Progress

After a few more modifications to include EML 2.1.1 support, this is deployed on mn-ucsb-3. Unfortunately it uses hardcoded (or at least ant build-time) values for the server (knb.ecoinformatics.org) so a perfect tst won't happen until the new server is live.

#2 - 2012-06-12 04:41 - Ben Leinfelder

- Status changed from In Progress to Closed

Temporarily edited the ant build to use the current hostname - eml 2.1.1 test ran great. Now reverting to knb.ecoinformatics.org setting.
