Milestone:	CCI-1.0.0		
Product Version:	*		
Description			
I believe the AdminDB needs to allow connections from the new server. I'm receiving this error when running from mn-ucsb-3.dataone.org: DBI connect('dbname=nead;host=admin.nceas.ucsb.edu;port=5432','head_app',...) failed: could not connect to server: Connection timed out Is the server running on host "admin.nceas.ucsb.edu" and accepting TCP/IP connections on port 5432? at /usr/local/share/perl/5.10.1/NCEAS/AdminDB.pm line 93 And I cannot telnet from the host either: leinfelder@mn-ucsb-3:~/AdminDB\$ telnet admin.nceas.ucsb.edu 5432 Trying 128.111.220.72... telnet: Unable to connect to remote host: Connection timed out			

History

#1 - 2012-06-11 21:14 - Nick Outin

I opened up the firewall to mn-ucsb-3, which should be enough to connect.

#2 - 2012-06-12 03:13 - Ben Leinfelder
