

Infrastructure - Bug #2917

Add both Root and Production CA to /var/local/dataone/ca for dataone_cn_os_core

2012-06-12 03:42 - Robert Waltz

Status:	Closed	Start date:	2012-06-11
Priority:	Normal	Due date:	
Assignee:	Robert Waltz	% Done:	100%
Category:	d1_cn_buildout	Estimated time:	0.00 hour
Target version:	Sprint-2012.23-Block.3.4	Story Points:	
Milestone:	CCI-1.0.1		
Product Version:	*		
Description			
Immediate fix. We need to divide out the Dataone Production chain file into two separate file during installation.			
SSLCACertificatePath does not handle chain files.			
Upon completion of this bug, create a story about use of SSLCertificateChainFile directive in apache instead of SSLCACertificatePath. We should discuss the option of concatenating all CA files together (cilogon + DataONE) into a single pem file.
