

## Infrastructure - Task #2918

Story # 2720 (Closed): KNB, LTER, PISCO, ESA, SANPARKS roll out

Task # 2882 (Closed): KNB MN upgrade

Task # 2902 (Closed): Move/deprecate/update "authority" LSID-resolution service

### LSID authority service error on init

2012-06-12 03:50 - Ben Leinfelder

<b>Status:</b>	Closed	<b>Start date:</b>	2012-06-12
<b>Priority:</b>	Urgent	<b>Due date:</b>	
<b>Assignee:</b>	Matthew Jones	<b>% Done:</b>	100%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Sprint-2012.35-Block.5.2	<b>Story Points:</b>	
<b>Milestone:</b>	CCI-1.0.0		
<b>Product Version:</b>	*		
<b>Description</b>			
During authority.war init() we get this error: java.lang.NoClassDefFoundError: org/w3c/dom/ElementTraversal			
It is because of a missing xml-apis.jar file (the file was renamed with specific version provenance in the name but not reflected in the build.xml)			
We can patch each deployment manually by including the missing jar or we can revisit the 2.0.0 Metacat tag.			
(Assigning to Matt for triage)			

### History

#### #1 - 2012-06-12 04:43 - Ben Leinfelder

This is also deployed on the ESA server (including the manual patch where I drop in the missing xml-apis jar file)

#### #2 - 2012-06-12 05:42 - Ben Leinfelder

- Status changed from New to Closed

Discussed with Matt - we will leave as is and be mindful of any future deployments.

#### #3 - 2012-06-12 21:35 - Ben Leinfelder

The work around is to copy the xml-apis\*.jar file from the Metacat deployment (webapps/knb/WEB-INF/lib/) to the authority service deployment (webapps/authority/WEB-INF/lib)
