### #3 - 2012-07-03 22:11 - Ben Leinfelder

I've updated the SM data updated timestamp on the "missing" pids - the next harvest should process them and we'll see where we are then.

### #4 - 2012-07-03 22:52 - Ben Leinfelder

Updated SM on SANParks and they should be synched:

-- these were missing on the CN

BEGIN;

update systemmetadata sm

set date\_modified = now()

where sm.guid in

These were synched now. There are some CN-CN replication issues that have prevented them from all being on all three CN instances, but they are at least retrievable by /meta and /resolve
