

Infrastructure - Task #2983

Story # 2720 (Closed): KNB, LTER, PISCO, ESA, SANPARKS roll out

Upgrade KNB to Metacat 2.0.1

2012-06-19 20:33 - Ben Leinfelder

Status:	Closed	Start date:	2012-06-19
Priority:	High	Due date:	
Assignee:	Ben Leinfelder	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	Sprint-2012.35-Block.5.2	Story Points:	
Milestone:	CCI-1.0.0		
Product Version:	*		

Description

Before generating ORE documents on KNB, we need to install the latest release.
Planning on doing the upgrade Tues. June 19th, 2012 in the evening. SShould not be too much downtime.
Remember to:
-update all the skin-specific passwords (NCEAS admin db) and the LDAP modification passwords.
-copy the spatial cache files and put them back in place so they do not need to be regenerated.
-cgi execute permissions

History

#1 - 2012-06-22 14:49 - Ben Leinfelder

- Status changed from New to Closed

Verified the NCEAS registry, the spatial cache and the ldapweb account registration are all working.
We are ready to generate OREs whenever is convenient.
