Target version:	Sprint-2012.25-Block.4.1	Story Points:	
Milestone:	None		
Product Version:	*		

Description

In sandbox, the NodeReference "urn:node:cnSandbox" is not found in the NodeRegistry, but it is used for replicas in synchronization.

urn:node:cnSandbox
completed
2012-06-25T00:00:00.000+00:00

(this causes problems in general because it breaks the contract that nodeReferences used in the system should be (registered) in the NodeRegistry, and in specific in the case where D1Client.getMN(nodeReference) uses the Nodelist to look up the base url, as well as resolve.)

Need to register the round-robin CN into the cn.nodeList.
