### Description

Need a pair of icons to indicate to users which document links in the ONEMercury interface the current users (public users for now) have the ability to read.

For private documents a padlock icon has been recommended.

For open/available documents a 'person' icon has been suggested to indicate public.   Im not sure a 'person' icon will indicate access to most users.   I am suggesting an open padlock or perhaps a key icon indicated access.

Perhaps the icons could also be color coded - shade of green means access,  shade of red means no access.

### History

**#1 - 2012-06-29 14:35 - Chris Allen**

*- % Done changed from 0 to 70*

Attached are three versions of the padlock in both plum and teal matching DataONE's color codes.

Let me know how these are.
