Target version:	Sprint-2012.33-Block.5.1	Story Points:	
Milestone:	None		
Product Version:	*		

Description

After updating productions CNs to 1.0.3, it appears that there is a problem with LDAP replication. As a result, RR DNS was set to a single target (UCSB).

Content appears to be in a consistent state across the CNs after synchronization, so operating in single CN mode appeared to be successful, so fixing this issue is not critical, but should be considered a high priority.

History

- #1 - 2012-08-15 16:21 - Robert Waltz
 - Target version changed from Sprint-2012.29-Block.4.3 to Sprint-2012.33-Block.5.1
- #2 - 2012-08-16 18:09 - Robert Waltz
 - Status changed from New to Closed
